

EXIT PI

Program Improvement
Exit Process for Districts

You've just been identified as a PI District in California—what next?

How do you navigate through the multitude of new sanctions and requirements?

Action Learning Systems has a proven track record in helping districts clear the path to exiting Program Improvement (PI).

Functions of the External Provider

Districts in PI years 1 or 2 receive up to two years of funding¹ to contract with an external provider. As your external provider ALS will:

- Verify the district's required self-analysis (teaching and learning needs)
- Determine causes of PI status—why the prior LEA plan did not result in meeting AYP
- Ensure the district receives intensive support and expertise to implement the revised LEA plan
- Revise and implement the LEA plan to reflect the findings of the verified district self-assessment

ALS will not just work with you to develop your plan, we will help you implement it.

DAIT Services for PI Year 3 Districts

Action Learning Systems is an SBE-approved DAIT provider. Our approach identifies high-leverage action steps and supports implementation in a focused, coherent plan to raise student achievement. We assist districts in meeting all state requirements while working collaboratively to build effective systemic change and close the achievement gap for all students.

Action Learning Systems: Approved DAIT Provider

ALS has a strong, successful background to assist districts at all levels in planning the reform and implementation for exiting PI.

State confidence in ALS is reflected in the selection of ALS as the only private provider participating in the District Assistance and Intervention Team (DAIT) pilot in California.

Approved Leads, Approved Services

ALS Leads are approved by CDE for District Assistance and Intervention Team (DAIT) services. ALS is a State-board approved provider for DAIT, School Assistance and Intervention Team (SAIT) services, and AB 430 and SB 472 administrator and teacher professional development.
